ABOUT ME

What started out as a passion over 4 years ago has succeeded in being my career. I've worked on multiple projects with startups and companies in the web2 space as a mobile and web developer. Now I'm fully dedicated to creating a meaningful impact in the web3 space.

EXPERIENCE

Clynto, USA — Blockchain Developer

JULY 2024 - SEPTEMBER 2024

<https://clynto.com>

Built the smart contracts for a P2P lending and borrowing protocol, enabling loan creation, funding, repayment, and liquidation across multiple tokens. Additionally, implemented a governance system utilizing CLY tokens for voting. Built with Solidity, Hardhat, Ethersjs, Openzeppelin, e.t.c

BuidlGuidl, USA — Blockchain Developer

MARCH 2023 - JANUARY 2024

ETH Mobile

<https://ethmobile.io>

Built an open-source toolkit for building mobile decentralized applications seamlessly using React Native & Foundry/Hardhat; Built with React Native, Foundry, Hardhat, Ganache, Ethersjs, e.t.c

Yield: A Liquid Restaking Protocol

<https://github.com/ValentineCodes/yield>

Built a protocol which enables users to stake stETH into Eigenlayer to earn extra rewards. Admins(a multisig wallet) can delegate and undelegate to an operator and also withdraw assets. Built with Next.js, Solidity, Ethersjs, WalletConnect, e.t.c

Paux Wallet

<https://play.google.com/store/apps/details?id=com.paux.wallet>

Built a safe and secure crypto wallet to generate accounts, manage tokens, transfer funds, interact with dApps and more on multiple EVM-compatible chains. Built with React Native, WalletConnect, e.t.c

SKILLS

Solidity

Typescript

React Native

Next.js

TailwindCss

Redux

Firebase

Git | Github

ACHIEVEMENTS

Top 10 in Bitcoin x Lukso Grants Program with Kitso - a variation of ETH Mobile for Lukso

Bitcoin Grantee with ETH Mobile

BuidlGuidl Extensions Hackathon Winner with Universal Profile Extension

EDUCATION

Nnamdi Azikiwe University, Nigeria — Computer Science

OCTOBER 2017 - DECEMBER 2023

DevRel University by Bianca Buzea

OCTOBER 2024 - DECEMBER 2024
